Cherry & Hill & & Nurseries

T. C. THURLOW'S SONS, Inc.

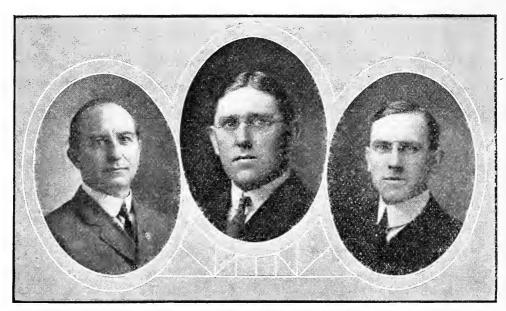

Established 1832

West Newbury, Massachusetts

OUR NURSERIES are midway between Newburyport and Haverhill and may be reached via good carriage and automobile roads on the north from either of these cities. On the south we may be reached by leaving the Newburyport Turnpike at Glen Mills near the famous Dummer Academy and motoring across country via Byfield.

We are one and a half miles from the West Newbury-Electric Railroad running between Haverhill and Newburyport and two and a half miles from the Byfield Steam Depot and Dummer Academy - Georgetown Electric Railroad.

VISITORS ARE GLADLY WELCOMED ANY DAY EXCEPT SUNDAY

CHERRY HILL NURSERIES

In presenting our annual hand book of prices we want to say to all our old customers that we have tried hard to send you stock of such quality and vigor that with good care, the same would so grow and thrive that you would be pleased and feel that when you wanted more nursery stock you would come back to us.

To all old customers and to many prospective new ones we will say that during the past twelve months our stock has been cared for better than ever before, and we are determined more than ever to furnish you with such choice trees and shrubs that you will feel you have not misplaced your confidence in sending to us.

We would call your attention especially to extra large specimen trees and shrubs in many varieties. We have so cared for these and developed them that they may be dug and shipped with safety a long distance.

Delivery and Prices. The prices herein quoted are for stock dug and ready for packing. No charge will be made for Delivery to Railroad or Express Office. Boxing and Baling, however, will be charged at actual cost.

Many times it will be advisable to deliver stock to destination by motor truck or teams, and in all cases where the cost is nearly the same as that of combined packing and freight, we think it preferable, as stock in this way can be delivered to customers in much quicker time and in better condition. These charges are moderate.

We aim to take the utmost care in furnishing nursery stock of number one quality, and dig and pack all trees and plants so that they will reach customers hands in the best of shape. We cannot, however, control planting, after care, weather conditions, etc. and, therefore, cannot warrant stock to live.

EVERGREEN TREES

Our evergreens are transplanted every two or three years, which enables us to lift them with a fine, fibrous root-system which readily holds a suitable ball of earth. We carefully burlap the roots with the earth adhering, as we believe this the most satisfactory way to pack and ship evergreens. It is the custom of many to make a charge for this burlaping, but we feel that the trees are not complete without it and, therefore, include this service in the price of the tree.

POTTED ROSES.

Dormant roses do not give the most satisfactory results the first year unless planted early in the spring. We have, therefore, potted a number for delivery in May and June. These will give immediate results, as they will be in leaf at that time. As the quantity will be limited, we will be glad to accept orders now for later delivery.

In the above listed varieties: \$.50 each; \$4.50 per ten; \$40. per 100.

HERBACEOUS PLANTS

The intrinsic value of our Perennials is too well known to need a lengthy description.

Our aim always has been to give our customers "JUST A LITTLE BETTER THAN PROMISED" and in that way merit the confidence they have placed in us year after year.

We are taking great pains to secure the best stock obtainable, and shall offer to our customers only such varieties as we have proved in our own grounds.

The following brief descriptions will serve as an index to what we carry in our general stock. It frequently happens, however, that we have many varieties not listed, and are always glad to correspond in regard to anything not found in this catalog.

THE COMMONWEALTH OF MASSACHUSETTS. STATE BOARD OF AGRICULTURE.

Official Certificate No. 139.

Boston, January 6, 1917.

TO WHOM IT MAY CONCERN:

THIS IS TO CERTIFY that I have this sixth day of January completed the inspection of the nursery stock of Cherry Hill Nurseries, T. C. Thurlow's Sons, Proprietors, grown at West Newbury, State of Massachusetts, and find it to be apparently free from all injurious insects and diseases which might be transferred on nursery stock from the nursery to the orchard or garden.

This certificate is good until July 1, 1917. Inspected by Whitcomb & Simmons.

(Signed) H. T. FERNALD, R. H. A. Inspector.
